

TRUFUEL

40:1 MIX & 50:1 MIX

The perfect fuel for all 2-cycle, air cooled engines requiring a 50:1 or 40:1 mix. Premixed & ready to use gasoline formulated with synthetic oil, a fuel stabilizer, and ethanol-free gasoline.

2-cycle fuel often becomes stale and contaminated after repeated opening of the storage container. If not mixed properly, according to original equipment manufacturer recommendations, excess smoke; plug fouling and short engine life can be expected.

Synthetic oil, mixed at the correct ratio, with the correct octane, and ethanol-free gasoline ensures better lubrication, reduces smoke, minimizes engine deposits, and extends engine life. TruFuel is available in 32-oz quarts for both 50:1 and 40:1 mix.

BENEFITS

Synthetic oil

- Reduces Smoke
- Improves Lubrication and Performance
- Minimizes Engine Deposits
- Reduces Plug Fouling
- Extends Engine Life

Fuel Stabilizer

- Ensures 2 year shelf life after opening.
- Reduces gum and varnish.

Ethanol-free Gasoline

- Prevents rubber and plastic part breakdown

Available In	Part Number
TruFuel 50:1	0125638
TruFuel 40:1	0125538

Our synthetic oil has passed all test requirements for:
JASO FD, ISO-L-EGD, and API TC
TISI (Thailand Industry Standards Institute)

TruFuel with its synthetic oil meets or exceeds the warranty requirements of all manufactures of air-cooled 2-cycle engines requiring:

50:1 Mix

STIHL
HUSQVARNA
ECHO
SHINDAIWA
RYOBI
MARUYAMA

40:1 Mix

CRAFTSMAN
POULAN
YARD MACHINES
TROY-BUILT
MCCULLOCH
WEEDEATER

TRUADVANTAGE

Convenience

- Premixed means all you have to do is pour.
- No mixing, no mess, just fresh fuel every time.
- Fuel stabilizers ensure a 2 year shelf life after opening.

Performance

- Our specially engineered fuel and synthetic oil means easier start up, increased trigger response and smoother idling with no smoke or plug fouling.

Protection

- TruFuel is ethanol free which prevents rubber and plastic part breakdown.
- Our synthetic technology and exact mix ratio extends equipment life, and ensures the proper break-in for your new equipment
