

SAW GUIDE

TruSouth Saw Guide Oils are designed with premium high quality base stocks and an additive system that reduces friction between saw and guide components. They are designed to be used for lubricating arbor bearings and saw guide systems. TruSouth Saw Guide Oils contain rust inhibitors and a tackifier to resist slinging.

TYPICAL PROPERTIES

Test	46	100
ISO Grade	46	100
Viscosity, cSt @40C	47.2	107.2
Viscosity, cSt @100C	7.2	12.39
VI	100	100
Gravity @ 60F	30.1	29.94
Pour Point, C(F)	-23 (-10)	-23 (-10)
Flash Point, C(F)	208 (406)	208 (406)
