

ATF

TYPE F

TruSouth Type F transmission fluid is specifically blended for certain transmissions and transaxles. It is formulated with group II mineral oils and performance additives to meet and exceed Ford M2C33F.

INDUSTRY APPROVAL:

Ford M2C33F

BENEFITS:

- Recommended wherever "TYPE F" fluid is required
- Viscosity is stable over a wide variety of temperatures
- Helps prevent sludge and varnish on control valves
- Provides wear protection for gears and bearings
- Helps prevent rust on critical mating parts
- Compatible with commonly used seal materials

TYPICAL PROPERTIES

Test	Typicals
Viscosity, cSt @40C	55.0
Viscosity, cSt @100C	9.3
VI	150
API Gravity @60F	31.1
Flash, COC, C (F)	213 (416)
Pour, C (F)	-42 (-44)
Brookfield Viscosity, cST@-40C	50,000
Color	Red

Order Numbers

Available in	Part Number
32-oz quarts	0120101
5 gallon pails	0120114
55 gallons drums	0120111
and bulk	0120100
